

AUVSI Hampton Roads was founded during the mid-1990's to serve the needs of emerging defense and industry technologists who were supporting uncrewed systems development. Our region includes the U.S. Navy, U.S. Air Force, U.S. Army, U.S. Coast Guard, NASA, and numerous local municipalities that comprise Hampton Roads. Our growing base includes members from academia, industry, and local governments. We reach from Northeast North Carolina, to the Eastern Shore of Virginia, to Richmond

AUVSI Hampton Roads mission is to promote uncrewed systems (UxS), across air, land, sea, and space ecosystems, through interactive engagement programs with businesses, educational institutions, government, and professional societies focused on regional economic growth”
