

Uncrewed Systems @ CNU

AUVSI Hampton Roads Luncheon
24 May 2023

Dr. Anton Riedl, Chair
Department of Physics, Computer Science and Engineering
riedl@cnu.edu

PCSE @ Christopher Newport

Christopher Newport University

- ❖ Public liberal arts & sciences university
- ❖ Located 1 mile from here
- ❖ Beautiful campus, gorgeous buildings, and wonderful people
- ❖ About 5,000 students

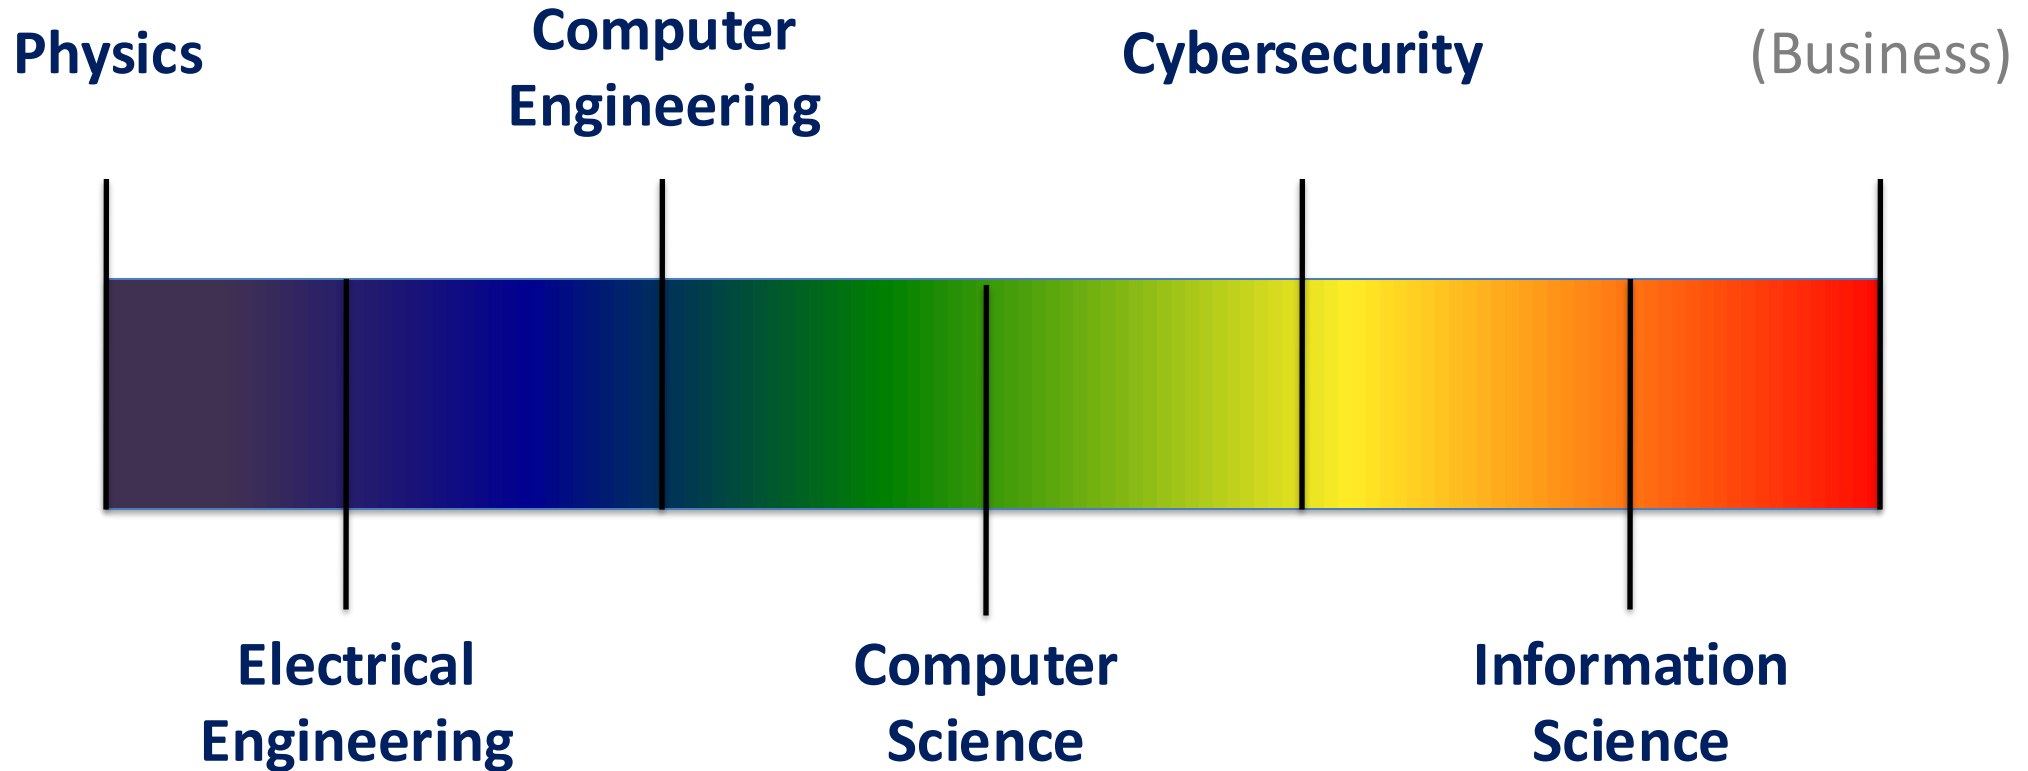

PCSE @ CNU

Physics, Computer Science & Engineering

- ❖ ~ 550 students
- ❖ 27 faculty
- ❖ 3 staff members

PCSE Program Spectrum

Minor in Data Science
M.S. in Applied Physics and Computer Science

Faculty Research Areas

Astrophysics

Power &
Control

Robotics

AI & ML

Nuclear
Physics

Communication
& Systems

Software
Engineering

Cybersecurity

Big Data, Data Science, Modeling, Simulation, Optimization

Uncrewed Systems @ PCSE

Courses supporting Uncrewed Systems

- ❖ Microcontrollers
- ❖ Networking
- ❖ Communications
- ❖ Control & Automation
- ❖ Introduction to Robotics
- ❖ Mechatronics and Cyber-physical Systems
- ❖ Programming in Python, Java, C/C++
- ❖ Data Science
- ❖ Artificial Intelligence
- ❖ Machine Learning

Relevant Faculty Research Areas

Astrophysics

Power &
Control

Robotics

AI & ML

Nuclear
Physics

Communication
& Systems

Software
Engineering

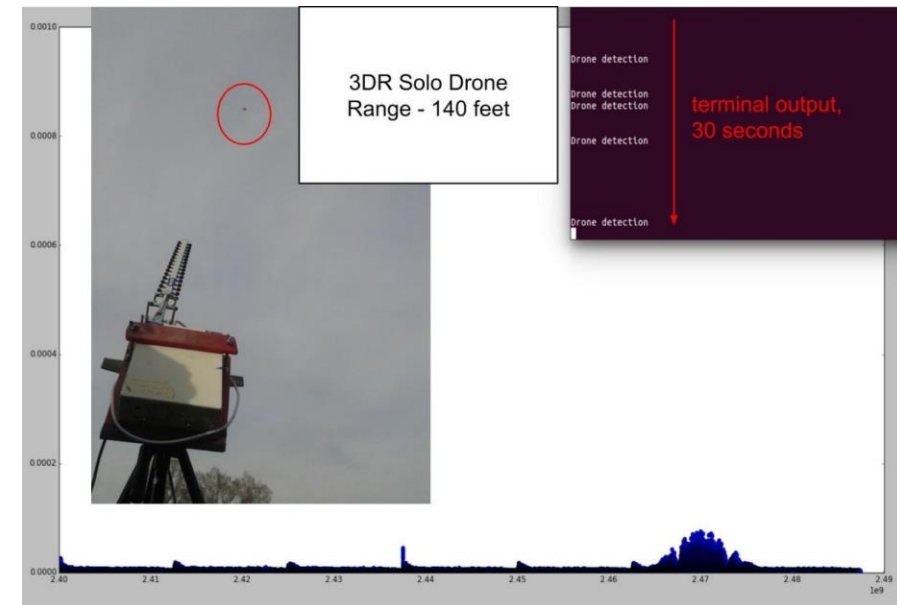

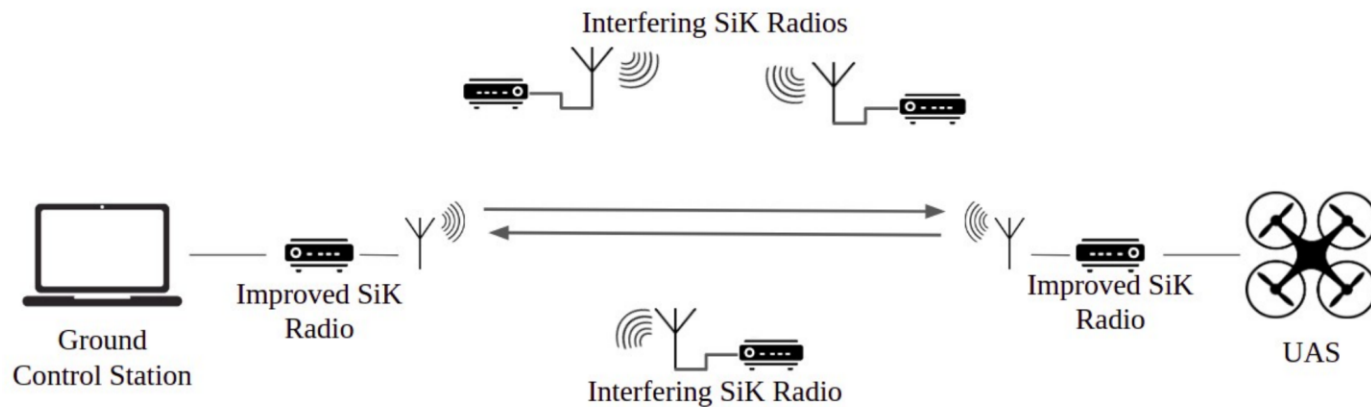

Cybersecurity

Big Data, Data Science, Modeling, Simulation, Optimization

Sample Student Projects (Capstones & Master Theses)

Wireless & Cybersecurity

- ❖ Pixhawk Exploit Kit – Hijacking a Drone’s Telemetry Link
- ❖ Facilitating Frame Injection Exploits Through SiK Radio Firmware Modification
- ❖ SiK Radio Fingerprinting
- ❖ Improved SiK Telemetry Radio
- ❖ Drone Detection using Passive Radar

Ground Vehicles

- ❖ COVID (Cleaning) Robot
- ❖ Dirty Counter Cleaner
- ❖ Automated Trash Can

Surface Vehicles

- ❖ Autonomous Water Sample Collection System
- ❖ *Promoting Electric Propulsion* Competition Boat (supported by American Society of Naval Engineers)

Aerial Vehicles

- ❖ Autonomously Expanding Mesh Network
- ❖ Uncertainty Propagation with State-estimation and Object Localization for an Autonomous Drone
- ❖ HoverRun: The Autonomous Training Partner
- ❖ 3d-Printed Solar Power Assisted UAV

CNU UAS Team

- ❖ UAS Team was founded by Cleveland White in 2013
- ❖ Focuses on Unmanned Aerial Systems performing autonomous mission
- ❖ Three major components:
 - Technical Journal Paper
 - Flight Readiness Review
 - Mission Demonstration

Outlook & Conclusion

New Building

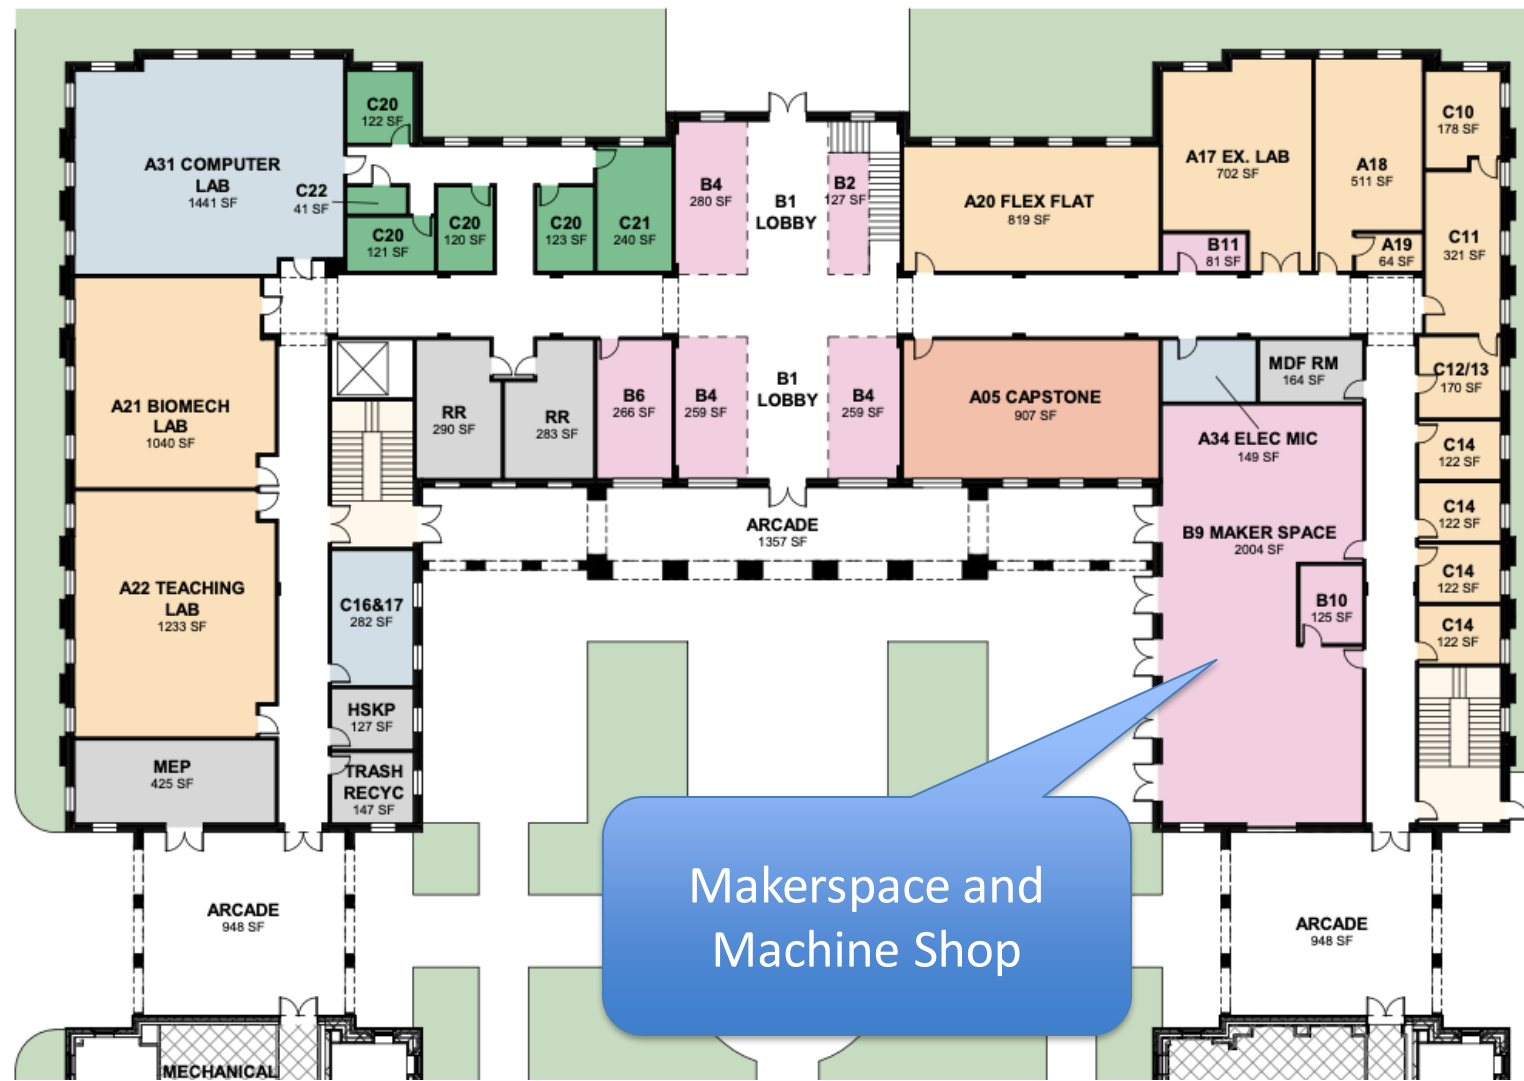

Integrated Science Center 3

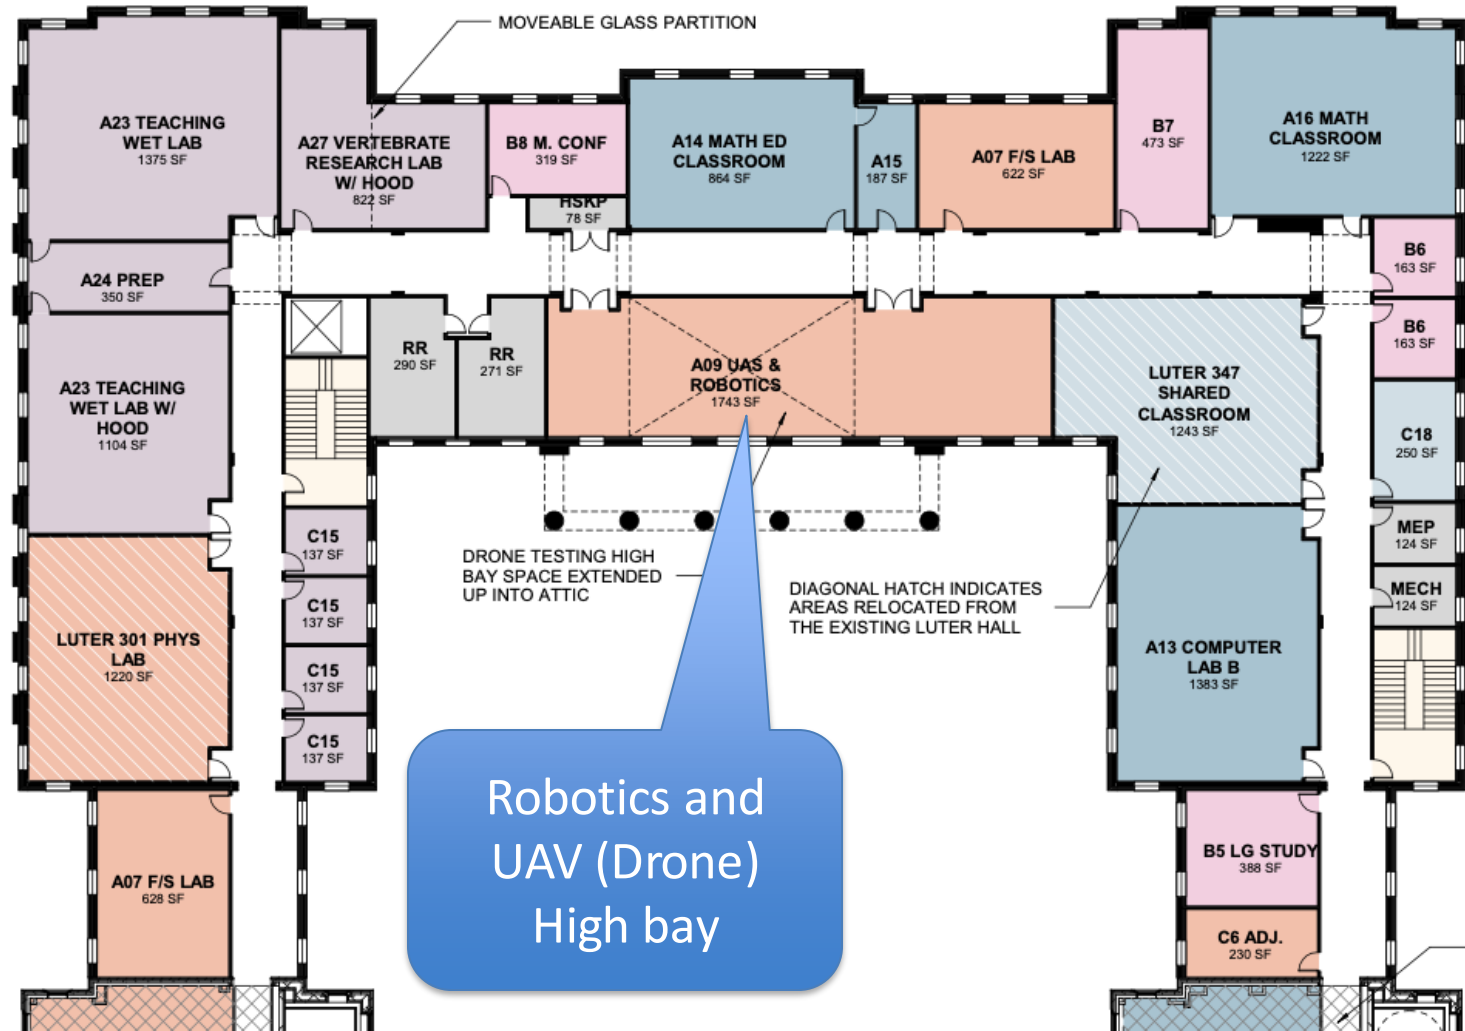

Christopher Newport University

Additional Engineering Spaces

Additional Engineering Spaces

Conclusion

- ❖ CNU = Liberal Arts & **Sciences & Technology & Engineering** University
- ❖ Great students, graduates, and professors
- ❖ Open for partnerships and research collaborations
